SUBUNIT:
                                    FUNCTION: REQUIRED FOR THE ACTION OF COLICINS K AND L AND FOR THE STABILIZATION OF MATING AGGREGATES IN CONJUGATION. SERVES AS A RECEPTOR FOR A NUMBER OF T-EVEN LIKE PHAGES. ALSO ACTS AS A PORIN WITH LOW PERMEABILITY THAT ALLOWS SLOW PENETRATION OF SMALL
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              INTERACTION WITH THE CELL WALL.
SUBCELLULAR LOCATION: Membrane-associated (Potential).
SIMILARITY: BELONGS TO THE OMPA FAMILY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          SWISS-PROT entry is copyright.
